

## Goat TRC8 Polyclonal Antibody | anti-RNF139 antibody

Goat anti-TRC8 Antibody

| CATALOG # | HOST | REACTIVITY                                                   | APPLICATIONS                              |
|-----------|------|--------------------------------------------------------------|-------------------------------------------|
| AAA61374  | Goat | Tested: Human; Expected from sequence similarity: Human, Dog | Immunohistochemistry, Western Blot, ELISA |

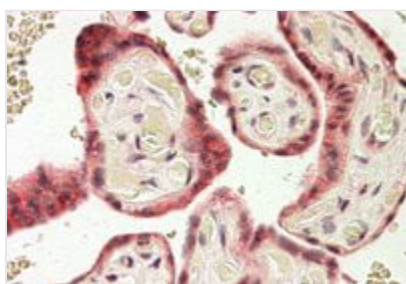

### PRODUCT SYNONYMS

TRC8; Polyclonal Antibody; Goat anti-TRC8 Antibody; RNF139; ring finger protein 139; HRCA1; MGC31961; RCA1; patched related protein translocated in renal cancer; multiple membrane spanning receptor TRC8; RNF139 antibody; ring finger protein 139 antibody; TRC8 antibody; HRCA1 antibody; MGC31961 antibody; RCA1 antibody; patched related protein translocated in renal cancer antibody; multiple membrane spanning receptor TRC8 antibody; anti-RNF139 antibody

### PRODUCT SPECIFICATIONS

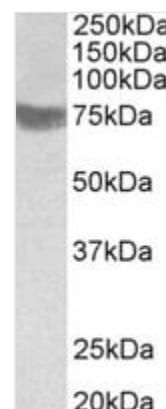

|                                                  |                                                                                                                                       |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Goat                                                                                                                                  |
| Reactivity                                       | Tested: Human; Expected from sequence similarity: Human, Dog                                                                          |
| Clonality                                        | Polyclonal                                                                                                                            |
| Purity/Purification                              | Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. |
| Form/Format                                      | Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.                                       |
| Concentration                                    | 100ug specific antibody in 200ul (varies by lot)                                                                                      |
| Sequence Length                                  | 664                                                                                                                                   |
| Applicable Applications for anti-RNF139 antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA (Peptide ELISA)                                                                  |
| Immunogen                                        | Peptide with sequence C-HTGAAAEFNDT, from the C Terminus of the protein sequence according to NP_009149.2.                            |
| Epitope                                          | C Terminus                                                                                                                            |
| Preparation and Storage                          | Aliquot and store at -20°C. Minimize freezing and thawing.                                                                            |

### IMAGES

**IHC (Immunohistochemistry)**

AAA61374 (3.8ug/ml) staining of paraffin embedded Human Placenta. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

**WB (Western Blot)**

AAA61374 (1ug/ml) staining of Human Skeletal Muscle lysate (35ug protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.
