### PRODUCT SYNONYMS

Scribble/Vartul; Goat anti-Scribble/Vartul Antibody; SCRIB; scribbled homolog (Drosophila); Circletail homolog (Mouse); CRIB1; SCRB1; SCRIB1; Vartul; KIAA0147; scribble; anti-SCRIB antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                       |
|-------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Goat                                                                                                                                  |
| Reactivity                                      | Human<br>Expected from sequence similarity: Mouse, Rat                                                                                |
| Purity/Purification                             | Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. |
| Form/Format                                     | Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.                                       |
| Concentration                                   | 100ug specific antibody in 200ul (varies by lot)                                                                                      |
| Applicable Applications for anti-SCRIB antibody | IHC (Immunohistochemistry), ELISA (Peptide ELISA)                                                                                     |
| Immunogen                                       | Peptide with sequence C-VRPGRRLGLPVPS, from the C Terminus of the protein sequence according to NP_874365.2; NP_056171.2.             |
| Epitope                                         | C Terminus                                                                                                                            |
| Preparation and Storage                         | Aliquot and store at -20 degree C. Minimize freezing and thawing.                                                                     |

### IMAGES

**IHC (Immunohistochemistry)**

AAA61883 Negative Control showing staining of paraffin embedded Human Tonsil, with no primary antibody.

**IHC (Immunohistochemistry)**

AAA61883 (8ug/ml) staining of paraffin embedded Human Tonsil. Heat induced antigen retrieval with citrate buffer pH 6, HRP-staining.

### ADDITIONAL INFORMATION

|            |                                                                                                                                                                                                                                                |
