

Mouse Newcastle Disease Virus Monoclonal Antibody

Anti-Newcastle Disease Virus (mouse monoclonal)

CATALOG # AAA62034	HOST Mouse	APPLICATIONS Western Blot, ELISA
------------------------------	----------------------	--

PRODUCT SYNONYMS

Newcastle Disease Virus; Monoclonal Antibody; Anti-Newcastle Disease Virus (mouse monoclonal); anti-Newcastle Disease Virus antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Clone Number	9F7
Specificity	Reacts with viral glycoprotein hemagglutinin-neuraminidase.
Purity/Purification	Protein G Sepharose chromatography
Concentration	1 ug/ul in PBS with 0.1% sodium azide. (varies by lot)
Applicable Applications for anti-Newcastle Disease Virus antibody	WB (Western Blot), ELISA
Immunogen	Hybridoma clone has been derived form hybridization of Sp2/0 myeloma cells with spleen cells of Balb/c mice immunized with Newcastle disease virus (La-sota starin).
Usage	This product does not contain livestock or poultry disease agents, non-toxic/non-contagious and is not intended for human use, only for laboratory research and development.
Preparation and Storage	Store at -20 degree C; Stable for at least 1 month from the date of shipment at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for anti-Newcastle Disease Virus antibody	Description: Mouse anti-cytomegalovirus monoclonal antibody.
Product Categories/Family for anti-Newcastle Disease Virus antibody	Monoclonal Antibodies for Influenza Viruses ; Monoclonal Antibodies for Newcastle Disease Virus

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
