

Rabbit HA (Influenza B) Polyclonal Antibody | anti-HA antibody

Anti-HA (Influenza B), rabbit IgG

CATALOG # AAA62106	HOST Rabbit	APPLICATIONS ELISA, Western Blot
------------------------------	-----------------------	--

PRODUCT SYNONYMS

HA (Influenza B); Polyclonal Antibody; Anti-HA (Influenza B); rabbit IgG; anti-HA antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Specificity	Reacts with Influenza B HA protein. Cross-reactivity not tested.
Purity/Purification	Immunoaffinity chromatography
Concentration	2 ug/ul in PBS with less than 0.1% gelatin and 0.1% sodium azide (varies by lot)
Applicable Applications for anti-HA antibody	ELISA, WB (Western Blot)
Immunogen	In vivo expressed full-length HA protein from Influenza B virus (B/Malaysia/2506/2004) (GenBank No. ABU99194)
Preparation and Storage	Store at -20 degrees C; Stable for 6-months from the date of receipt when kept at 4 degrees C. Non-hazardous. No MSDS required.

IMAGES

Application Data

1: 293 cell extract control 2: 293 cell expressing HA (B/Malaysia/2506/2004)

ADDITIONAL INFORMATION

Related Product Information for anti-HA antibody	Description: Rabbit polyclonal antibody produced by genetic immunization Introduction: Influenza hemagglutinin (HA) is a type of hemagglutinin found on the surface of the influenza viruses. HA is an antigenic glycoprotein, like all other hemagglutinins, it causes red blood cells to agglutinate. HA is responsible for binding the virus to the cell that is being infected. HA proteins bind to cells with sialic acid on the membranes, such as cells in the upper respiratory tract or erythrocytes. HA is a homotrimeric integral membrane glycoprotein. HA monomer is synthesized as a single polypeptide that is subsequently cleaved into two smaller polypeptides, the HA1 and HA2 subunits. Each HA monomer consists of a long, helical chain anchored in the membrane by HA2 and topped by a large HA1 globule.
Product Categories/Family for anti-HA antibody	Antibodies for Infectious Diseases (rabbit Polyclonal unless specified); Affinity Purified Rabbit Polyclonal Antibodies against Influenza A

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
