

HA (H5N8)(A/duck/NY/191255-59/02) Recombinant Protein | HA recombinant protein

HA (H5N8)(A/duck/NY/191255-59/02) (aa 1-490)

CATALOG # AAA62186	HOST 293 cell culture	APPLICATIONS ELISA, Western Blot
------------------------------	---------------------------------	--

PRODUCT SYNONYMS

HA (H5N8)(A/duck/NY/191255-59/02); HA (H5N8)(A/duck/NY/191255-59/02) (aa 1-490); glycosylated recombinant protein; HA (aa 1-490)(H5N8)(A/duck/NY/191255-59/02); HA recombinant protein

PRODUCT SPECIFICATIONS

Host	293 cell culture
Purity/Purification	>95% (By 10% SDS-PAGE gel)
Concentration	1 ug/ul in PBS. (varies by lot)
Sequence Length	548
Applicable Applications for HA recombinant protein	ELISA, WB (Western Blot)
Viral Protein	C-terminal 6xHis tagged hemagglutinin protein HA (amino acid 1-490)(H5N8)(A/duck/NY/191255-59/02) (Genebank No. AAP72011).
Preparation and Storage	Store at -20 degree C. Stable for 6-months from the date of shipment when kept at 4 degree C. Non-hazardous. No MSDS required.

ADDITIONAL INFORMATION

Related Product Information for HA recombinant protein

Description: Viral protein purified from 293 cell culture.

Introduction: Influenza hemagglutinin (HA) is a type of hemagglutinin found on the surface of the influenza viruses. HA is an antigenic glycoprotein, like all other hemagglutinins, it causes red blood cells to agglutinate. HA is responsible for binding the virus to the cell that is being infected. HA proteins bind to cells with sialic acid on the membranes, such as cells in the upper respiratory tract or erythrocytes.

HA is a homotrimeric integral membrane glycoprotein. HA monomer is synthesized as a single polypeptide that is subsequently cleaved into two smaller polypeptides, the HA1 and HA2 subunits. Each HA monomer consists of a long, helical chain anchored in the membrane by HA2 and topped by a large HA1 globule.

NCBI AND UNIPROT INFORMATION

NCBI GI #	32165594
NCBI Official Full Name	hemagglutinin, partial
UniProt Protein Name	Hemagglutinin
UniProt Gene Name	HA
UniProt Entry Name	Q7TE93_9INFA

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
