

Goat Streptavidin Polyclonal Antibody

anti-Streptavidin

CATALOG # AAA63168	HOST Goat	REACTIVITY Recombinant Streptavidin	APPLICATIONS Western Blot
------------------------------	---------------------	---	-------------------------------------

PRODUCT SYNONYMS

Streptavidin; Polyclonal Antibody; anti-Streptavidin; SA V1; SA V2; Streptavidin V1; Streptavidin V2 antibody; anti-Streptavidin antibody

PRODUCT SPECIFICATIONS

Host	Goat
Reactivity	Recombinant Streptavidin
Clonality	Polyclonal
Isotype	IgG
Specificity	Reacts specifically with streptavidin protein.
Purity/Purification	Epitope affinity purified
Form/Format	Polyclonal antibody supplied as a 100ul (3mg/ml) aliquot in PBS, 20% glycerol and 0.05% sodium azide.
Concentration	3mg/ml (varies by lot)
Applicable Applications for anti-Streptavidin antibody	WB (Western Blot)
Conjugation	Unconjugated
Immunogen	Peptide derived from within residues 50 aa to the C-terminus of streptavidin protein.
Preparation and Storage	Store at -20 C for long-term storage. Store at 2-8 C for up to one month.

Reactivity Data

Application Data

Anti-Streptavidin Ab at 1/2,500 dilution; lysates contain 30 ng of recombinant protein; rabbit polyclonal to goat IgG (HRP) at 1/10,000 dilution;

ADDITIONAL INFORMATION

Related Product Information for anti-Streptavidin antibody	Goat polyclonal antibody to streptavidin. Streptavidin is a tetrameric bacterial protein isolated from Streptomyces avidinii providing 4 high-affinity biotin binding sites. Because of its binding characteristics, streptavidin is commonly employed for immunotechniques requiring signal amplification using biotinylated reagents.
Product Categories/Family for anti-Streptavidin antibody	Primary

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
