

## Porcine Alpha-2-Heremans Schmid Glycoprotein (aHSG) ELISA Kit | aHSG elisa kit

Porcine Alpha-2-Heremans Schmid Glycoprotein (aHSG) ELISA Kit

CATALOG #  
**AAA63386**

REACTIVITY  
**Porcine**

### PRODUCT SYNONYMS

Alpha-2-Heremans Schmid Glycoprotein (aHSG); Porcine Alpha-2-Heremans Schmid Glycoprotein (aHSG) ELISA Kit; HSGa A2HS AHS FETUA HSG-A2 Fetuin-A Alpha 2-HS Glycoprotein Fetuin A Alpha-2-Z-Globulin Ba-alpha-2-Glycoprotein; aHSG elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Porcine                                                                                                                                                                                                    |
| Sequence Length         | 362                                                                                                                                                                                                        |
| Samples                 | Serum, plasma and other biological fluids.                                                                                                                                                                 |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 15.625-1000ng/mL                                                                                                                                                                                           |
| Sensitivity             | 6.7ng/mL                                                                                                                                                                                                   |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                               |                         |
|-------------------------------|-------------------------|
| NCBI GI #                     | <a href="#">231467</a>  |
| NCBI GeneID                   | <a href="#">397585</a>  |
| UniProt Accession #           | <a href="#">P29700</a>  |
| Molecular Weight              | 38,425 Da               |
| NCBI Official Full Name       | Alpha-2-HS-glycoprotein |
| NCBI Official Symbol          | AHSG                    |
| NCBI Official Synonym Symbols | FETUA; FETUIN           |
| NCBI Protein Information      | alpha 2-HS glycoprotein |

|                            |                         |
|----------------------------|-------------------------|
| UniProt Protein Name       | Alpha-2-HS-glycoprotein |
| UniProt Gene Name          | AHSG                    |
| UniProt Synonym Gene Names | FETUA                   |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
