

## Human Vasodilator Stimulated Phosphoprotein (VASP) ELISA Kit | VASP elisa kit

Human Vasodilator Stimulated Phosphoprotein (VASP) ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA63599</b> | REACTIVITY<br><b>Human</b> |
|------------------------------|----------------------------|

### PRODUCT SYNONYMS

Vasodilator Stimulated Phosphoprotein (VASP); Human Vasodilator Stimulated Phosphoprotein (VASP) ELISA Kit; VASP elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                                      |
| Sequence Length         | 380                                                                                                                                                                                                        |
| Samples                 | Tissue homogenates, cell lysates and other biological fluids.                                                                                                                                              |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 0.156-10ng/mL                                                                                                                                                                                              |
| Sensitivity             | 0.056ng/mL                                                                                                                                                                                                 |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

| NCBI Official Full Name          | vasodilator-stimulated phosphoprotein                                                             |
| NCBI Official Synonym Full Names | vasodilator-stimulated phosphoprotein                                                             |

|                            |                                       |
|----------------------------|---------------------------------------|
| NCBI Official Symbol       | VASP                                  |
| NCBI Protein Information   | vasodilator-stimulated phosphoprotein |
| UniProt Protein Name       | Vasodilator-stimulated phosphoprotein |
| UniProt Gene Name          | <b>VASP</b>                           |
| UniProt Synonym Gene Names | VASP                                  |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
