

## Mouse Thymus Activation Regulated Chemokine (TARC) ELISA Kit | TARC elisa kit

Mouse Thymus Activation Regulated Chemokine (TARC) ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA64335</b> | REACTIVITY<br><b>Mouse</b> |
|------------------------------|----------------------------|

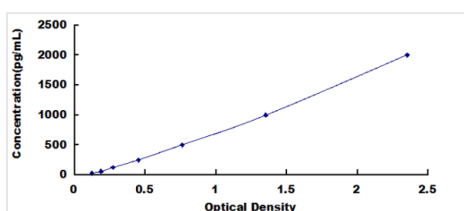

### PRODUCT SYNONYMS

Thymus Activation Regulated Chemokine (TARC); Mouse Thymus Activation Regulated Chemokine (TARC) ELISA Kit; CCL17; ABCD-2; SCYA17; TARC; Small Inducible Cytokine Subfamily A(Cys-Cys)Member 17; Small-inducible cytokine A17; TARC elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                                      |
| Sequence Length         | 103                                                                                                                                                                                                        |
| Samples                 | Serum, plasma and other biological fluids.                                                                                                                                                                 |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 31.25-2000pg/mL                                                                                                                                                                                            |
| Sensitivity             | 11.3pg/mL                                                                                                                                                                                                  |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                                  |                                 |
|----------------------------------|---------------------------------|
| NCBI GI #                        | <a href="#">225735579</a>       |
| NCBI GeneID                      | <a href="#">20295</a>           |
| NCBI Accession #                 | <a href="#">NP_035462.2</a>     |
| NCBI GenBank Nucleotide #        | <a href="#">NM_011332.3</a>     |
| UniProt Accession #              | <a href="#">F6R5P4</a>          |
| Molecular Weight                 | 11,539 Da                       |
| NCBI Official Full Name          | C-C motif chemokine 17          |
| NCBI Official Synonym Full Names | chemokine (C-C motif) ligand 17 |

|                               |                               |
|-------------------------------|-------------------------------|
| NCBI Official Symbol          | Ccl17                         |
| NCBI Official Synonym Symbols | Tarc; Abcd-2; Scya17; Scya17l |
| NCBI Protein Information      | C-C motif chemokine 17        |
| UniProt Protein Name          | C-C motif chemokine           |
| UniProt Gene Name             | <b>Ccl17</b>                  |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
