

## Rat Low Density Lipoprotein Receptor Related Protein 8 (LRP8) ELISA Kit | LRP8 elisa kit

Rat Low Density Lipoprotein Receptor Related Protein 8 (LRP8) ELISA Kit

CATALOG #  
**AAA64798**

REACTIVITY  
**Rat**

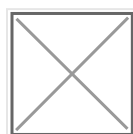

### PRODUCT SYNONYMS

Low Density Lipoprotein Receptor Related Protein 8 (LRP8); Rat Low Density Lipoprotein Receptor Related Protein 8 (LRP8) ELISA Kit; APOER2; Apolipoprotein E Receptor 2; LRP8 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                                        |
| Sequence Length         | 953                                                                                                                                                                                                        |
| Samples                 | Serum, plasma and other biological fluids.                                                                                                                                                                 |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 31.25-2000pg/mL                                                                                                                                                                                            |
| Sensitivity             | 13.3pg/mL                                                                                                                                                                                                  |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                                  |                                                    |
|----------------------------------|----------------------------------------------------|
| NCBI GeneID                      | <a href="#">362558</a>                             |
| UniProt Accession #              | <a href="#">D3ZE75</a>                             |
| Molecular Weight                 | 105,145 Da                                         |
| NCBI Official Synonym Full Names | LDL receptor related protein 8                     |
| NCBI Official Symbol             | Lrp8                                               |
| NCBI Protein Information         | low-density lipoprotein receptor-related protein 8 |
| UniProt Protein Name             | Protein Lrp8                                       |
| UniProt Gene Name                | <b>Lrp8</b>                                        |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
