

## Human Secretoglobin Family 2A, Member 2 (SCGB2A2) ELISA Kit | SCGB2A2 elisa kit

Human Secretoglobin Family 2A, Member 2 (SCGB2A2) ELISA Kit

CATALOG #  
**AAA65139**

REACTIVITY  
**Human**

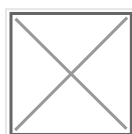

### PRODUCT SYNONYMS

Secretoglobin Family 2A; Member 2 (SCGB2A2); Human Secretoglobin Family 2A; Member 2 (SCGB2A2) ELISA Kit; MGB1; MGBA; UGB2; Mammaglobin 1; Mammaglobin A; Uteroglobin 2; SCGB2A2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                                      |
| Sequence Length         | 93                                                                                                                                                                                                         |
| Samples                 | Serum, plasma, tissue homogenates and other biological fluids.                                                                                                                                             |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 0.156-10ng/mL                                                                                                                                                                                              |
| Sensitivity             | 0.051ng/mL                                                                                                                                                                                                 |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |
