

## Rat Apolipoprotein H (APOH) ELISA Kit | APOH elisa kit

Rat Apolipoprotein H (APOH) ELISA Kit

CATALOG #  
**AAA65262**

REACTIVITY  
**Rat**

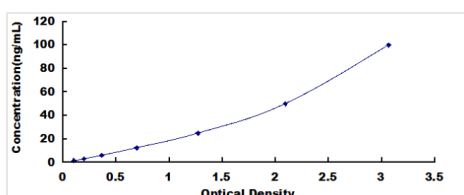

### PRODUCT SYNONYMS

Apolipoprotein H (APOH); Rat Apolipoprotein H (APOH) ELISA Kit; Apo-H; B2G1; BG; B2-GP1; B2GP1; Previously; Beta 2 Glycoprotein 1; APC inhibitor; Activated protein C-binding protein; Anticardiolipin cofactor; Beta(2)GPI; APOH elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                                        |
| Sequence Length         | 297                                                                                                                                                                                                        |
| Samples                 | Serum, plasma and other biological fluids.                                                                                                                                                                 |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 1.56-100ng/mL                                                                                                                                                                                              |
| Sensitivity             | 0.97ng/mL                                                                                                                                                                                                  |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                                  |                         |
|----------------------------------|-------------------------|
| NCBI GI #                        | <a href="#">1351954</a> |
| NCBI GeneID                      | <a href="#">287774</a>  |
| UniProt Accession #              | <a href="#">P26644</a>  |
| Molecular Weight                 | 33,197 Da               |
| NCBI Official Full Name          | Beta-2-glycoprotein 1   |
| NCBI Official Synonym Full Names | apolipoprotein H        |
| NCBI Official Symbol             | Apoh                    |
| NCBI Protein Information         | beta-2-glycoprotein 1   |

|                            |                          |
|----------------------------|--------------------------|
| UniProt Protein Name       | Beta-2-glycoprotein 1    |
| UniProt Gene Name          | Apoh                     |
| UniProt Synonym Gene Names | Apo-H; B2GPI; Beta(2)GPI |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
