

## Human Cardiotrophin Like Cytokine Factor 1 (CLCF1) ELISA Kit | CLCF1 elisa kit

Human Cardiotrophin Like Cytokine Factor 1 (CLCF1) ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA66030</b> | REACTIVITY<br><b>Human</b> |
|------------------------------|----------------------------|

### PRODUCT SYNONYMS

Cardiotrophin Like Cytokine Factor 1 (CLCF1); Human Cardiotrophin Like Cytokine Factor 1 (CLCF1) ELISA Kit; CLC; NR6; BSF3; CISS2; NNT1; Novel Neurotrophin-1; B Cell-Stimulating Factor-3; CLCF1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                                      |
| Sequence Length         | 215                                                                                                                                                                                                        |
| Samples                 | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                      |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 31.25-2000pg/mL                                                                                                                                                                                            |
| Sensitivity             | 13.9pg/mL                                                                                                                                                                                                  |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

| NCBI Official Synonym Symbols | CLC; NR6; BSF3; NNT1; BSF-3; CISS2; NNT-1 |
| NCBI Protein Information      | cardiotrophin-like cytokine factor 1      |
| UniProt Protein Name          | Cardiotrophin-like cytokine factor 1      |
| UniProt Gene Name             | <b>CLCF1</b>                              |
| UniProt Synonym Gene Names    | BSF3; CLC; NNT1; BSF-3; NNT-1             |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
