

## Human CCAAT/Enhancer Binding Protein Beta (CEBPb) ELISA Kit | CEBPb elisa kit

Human CCAAT/Enhancer Binding Protein Beta (CEBPb) ELISA Kit

CATALOG #  
**AAA67482**

REACTIVITY  
**Human**

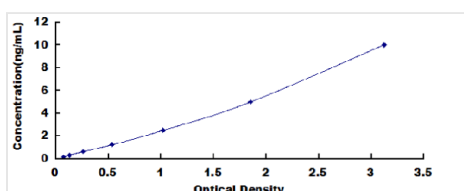

### PRODUCT SYNONYMS

CCAAT/Enhancer Binding Protein Beta (CEBPb); Human CCAAT/Enhancer Binding Protein Beta (CEBPb) ELISA Kit; CRP2; IL6DBP; LAP; NF-IL6; TCF5; C/EBP-Beta; Liver-Enriched Transcriptional Activator Protein; Nuclear Factor Of Interleukin 6; Interleukin 6-Dependent DNA-Binding Protein; CEBPb elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                                      |
| Sequence Length         | 322                                                                                                                                                                                                        |
| Samples                 | Tissue homogenates, cell lysates and other biological fluids.                                                                                                                                              |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 0.156-10ng/mL                                                                                                                                                                                              |
| Sensitivity             | 0.061ng/mL                                                                                                                                                                                                 |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

| Molecular Weight                 | 15,938 Da                                     |
| NCBI Official Full Name          | CCAAT/enhancer-binding protein beta isoform b |
| NCBI Official Synonym Full Names | CCAAT/enhancer binding protein beta           |

|                               |                                     |
|-------------------------------|-------------------------------------|
| NCBI Official Symbol          | CEBPB                               |
| NCBI Official Synonym Symbols | TCF5; IL6DBP; NF-IL6; C/EBP-beta    |
| NCBI Protein Information      | CCAAT/enhancer-binding protein beta |
| UniProt Protein Name          | CCAAT/enhancer-binding protein beta |
| UniProt Gene Name             | <b>CEBPB</b>                        |
| UniProt Synonym Gene Names    | TCF-5                               |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
