

# Bovine Triggering Receptor Expressed On Myeloid Cells 1 (TREM1) ELISA Kit | TREM1 elisa kit

Bovine Triggering Receptor Expressed On Myeloid Cells 1 (TREM1) ELISA Kit

|                              |                             |
|------------------------------|-----------------------------|
| CATALOG #<br><b>AAA68293</b> | REACTIVITY<br><b>Bovine</b> |
|------------------------------|-----------------------------|

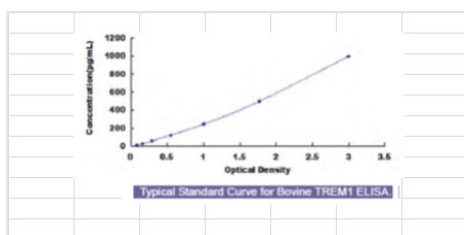

## PRODUCT SYNONYMS

Triggering Receptor Expressed On Myeloid Cells 1 (TREM1); Bovine Triggering Receptor Expressed On Myeloid Cells 1 (TREM1) ELISA Kit; TREM1 elisa kit

## PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Bovine                                                                                                                                                                                                     |
| Sequence Length         | 232                                                                                                                                                                                                        |
| Samples                 | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                      |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 15.625-1000pg/mL                                                                                                                                                                                           |
| Sensitivity             | 5.4pg/mL                                                                                                                                                                                                   |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |
