

## Rat Growth Hormone Secretagogue Receptor (GHSR) ELISA Kit | GHSR elisa kit

Rat Growth Hormone Secretagogue Receptor (GHSR) ELISA Kit

CATALOG #  
**AAA68561**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Growth Hormone Secretagogue Receptor (GHSR); Rat Growth Hormone Secretagogue Receptor (GHSR) ELISA Kit; GHRP; GH-releasing peptide receptor; Ghrelin receptor; GHSR elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                                                                                                                                                          |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity            | Rat                                                                                                                                                                                                      |
| Specificity           | This assay has high sensitivity and excellent specificity for detection of GHSR. No significant cross-reactivity or interference between GHSR and analogues was observed.                                |
| Sequence Length       | 364                                                                                                                                                                                                      |
| Samples               | Serum, plasma, tissue homogenates or other biological fluids                                                                                                                                             |
| Assay Type            | Quantitative Sandwich                                                                                                                                                                                    |
| Detection Range       | 0.156-10ng/mL                                                                                                                                                                                            |
| Sensitivity           | <0.058ng/mL.                                                                                                                                                                                             |
| Intra-assay Precision | Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level GHSR were tested 20 times on one plate, respectively. Intra-Assay: CV<10%                                   |
| Inter-assay Precision | Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level GHSR were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12% |

ADDITIONAL INFORMATION

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for GHSR elisa kit | <p>Intended Uses: The kit is a sandwich enzyme immunoassay for the in vitro quantitative measurement of GHSR in rat serum, plasma, tissue homogenates or other biological fluids.</p> <p>Principle of the Assay: The microtiter plate provided in this kit has been pre-coated with an antibody specific to GHSR. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to GHSR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain GHSR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of GHSR in the samples is then determined by comparing the O.D. of the samples to the standard curve.</p> |
