

## Human Regulator Of G Protein Signaling 6 (RGS6) ELISA Kit | RGS6 elisa kit

Human Regulator Of G Protein Signaling 6 (RGS6) ELISA Kit

CATALOG #  
**AAA68673**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Regulator Of G Protein Signaling 6 (RGS6); Human Regulator Of G Protein Signaling 6 (RGS6) ELISA Kit; GAP; S914; RGS6 elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                                                                                                                                                          |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity            | Human                                                                                                                                                                                                    |
| Specificity           | This assay has high sensitivity and excellent specificity for detection of RGS6. No significant cross-reactivity or interference between RGS6 and analogues was observed.                                |
| Sequence Length       | 490                                                                                                                                                                                                      |
| Samples               | Tissue homogenates or other biological fluids                                                                                                                                                            |
| Assay Type            | Quantitative Sandwich                                                                                                                                                                                    |
| Detection Range       | 0.156-10ng/mL                                                                                                                                                                                            |
| Sensitivity           | <0.064ng/mL.                                                                                                                                                                                             |
| Intra-assay Precision | Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level RGS6 were tested 20 times on one plate, respectively. Intra-Assay: CV<10%                                   |
| Inter-assay Precision | Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level RGS6 were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12% |

### ADDITIONAL INFORMATION

#### Related Product Information for RGS6 elisa kit

**Intended Uses:** The kit is a sandwich enzyme immunoassay for the in vitro quantitative measurement of RGS6 in human tissue homogenates or other biological fluids.

**Principle of the Assay:** The microtiter plate provided in this kit has been pre-coated with an antibody specific to RGS6. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to RGS6. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain RGS6, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of RGS6 in the samples is then determined by comparing the O.D. of the samples to the standard curve.
