

Rabbit Cholecystokinin A Receptor (CCKAR) RTU ELISA Kit | CCKAR rtu elisa kit

Rabbit Cholecystokinin A Receptor (CCKAR) ELISA Kit

CATALOG #
AAA69595

REACTIVITY
Rabbit

PRODUCT SYNONYMS

Cholecystokinin A Receptor (CCKAR); Rabbit Cholecystokinin A Receptor (CCKAR) ELISA Kit; CCK-A; CCK1; CCKRA; CCK1R; Cholecystokinin Type 1 Receptor; CCKAR rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Sequence Length	427
Assay Type	Sandwich
Samples	Tissue Homogenates or Other Biological Fluids.
Detection Range	1.56-100ng/mL
Sensitivity	0.61ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for CCKAR rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to CCKAR. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to CCKAR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain CCKAR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of CCKAR in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	126723681
NCBI GeneID	100009241
NCBI Accession #	NP_001075852.1
NCBI GenBank Nucleotide #	NM_001082383.1
UniProt Accession #	O97772
Molecular Weight	47,387 Da
NCBI Official Full Name	cholecystokinin receptor type A
NCBI Official Symbol	CCKAR
NCBI Protein Information	cholecystokinin receptor type A
UniProt Protein Name	Cholecystokinin receptor type A
UniProt Gene Name	CCKAR
UniProt Synonym Gene Names	CCK-A receptor; CCK-AR; CCK1-R

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
