

Porcine Ciliary Neurotrophic Factor (CNTF) RTU ELISA Kit | CNTF rtu elisa kit

Porcine Ciliary Neurotrophic Factor (CNTF) ELISA Kit

CATALOG #
AAA69844

REACTIVITY
Porcine

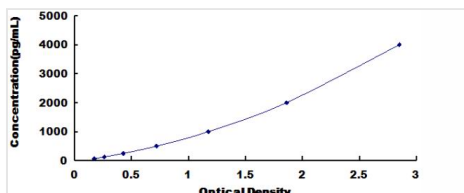

PRODUCT SYNONYMS

Ciliary Neurotrophic Factor (CNTF); Porcine Ciliary Neurotrophic Factor (CNTF) ELISA Kit; HCNTF; CNTF rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates or Other Biological Fluids.
Detection Range	62.5-4000pg/mL
Sensitivity	22.4pg/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for CNTF rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to CNTF. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to CNTF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain CNTF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of CNTF in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GeneID	100518821
UniProt Accession #	F1RMF2 ; O02732

NCBI Official Symbol	CNTF
NCBI Protein Information	LOW QUALITY PROTEIN: ciliary neurotrophic factor

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
