

Mouse Cystatin A (CSTA) RTU ELISA Kit | CSTA rtu elisa kit

Mouse Cystatin A (CSTA) ELISA Kit

CATALOG #
AAA70010

REACTIVITY
Mouse

PRODUCT SYNONYMS

Cystatin A (CSTA); Mouse Cystatin A (CSTA) ELISA Kit; Cys-A; STF1; STFA; Stefin A; Cystatin-AS; CSTA rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	97
Assay Type	Sandwich
Samples	Serum, Plasma, Saliva, Tissue Homogenates, Cell Lysates, Cell Culture Supernates or Other Biological Fluids.
Detection Range	46.8-3000pg/mL
Sensitivity	14.25pg/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for CSTA rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to CSTA. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to CSTA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain CSTA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of CSTA in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

[84370296](#)

NCBI GeneID	209294
NCBI Accession #	NP_001028411.1
NCBI GenBank Nucleotide #	NM_001033239.3
UniProt Accession #	P56567; Q3UV05
Molecular Weight	10,929 Da
NCBI Official Full Name	cystatin-A
NCBI Official Synonym Full Names	cystatin A1
NCBI Official Symbol	Csta1
NCBI Official Synonym Symbols	Csta
NCBI Protein Information	cystatin-A
UniProt Protein Name	Cystatin-A
UniProt Gene Name	Csta
UniProt Synonym Gene Names	Csta1

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
