

Human Gla Rich Protein (GRP) RTU ELISA Kit | GRP rtu elisa kit

Human Gla Rich Protein (GRP) ELISA Kit

CATALOG #
AAA71035

REACTIVITY
Human

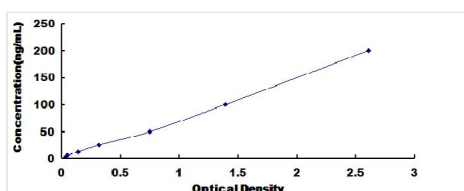

PRODUCT SYNONYMS

Gla Rich Protein (GRP); Human Gla Rich Protein (GRP) ELISA Kit; GRP rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	139
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates, Cell Lysates, Cell Culture Supernates or Other Biological Fluids.
Detection Range	3.12-200ng/mL
Sensitivity	1.23ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for GRP rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to GRP. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to GRP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain GRP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of GRP in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

187403710

Molecular Weight	16,998 Da
NCBI Official Full Name	Gla-rich protein
UniProt Protein Name	Unique cartilage matrix-associated protein
UniProt Gene Name	ucma
UniProt Synonym Gene Names	grp; GRP

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
