

Human Chorionic Gonadotropin (CG) RTU ELISA Kit | CG rtu elisa kit

Human Chorionic Gonadotropin (CG) ELISA Kit

CATALOG #
AAA71105

REACTIVITY
Human

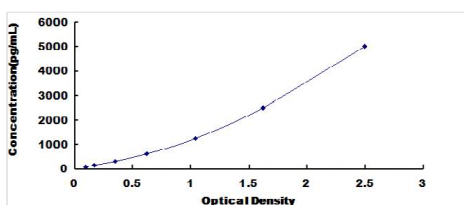

PRODUCT SYNONYMS

Chorionic Gonadotropin (CG); Human Chorionic Gonadotropin (CG) ELISA Kit; hCG; Human Chorionic Gonadotrophin; CG rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	165
Assay Type	Sandwich
Samples	Serum, Plasma, Urine, Tissue Homogenates, Cell Lysates, Cell Culture Supernates or Other Biological Fluids.
Detection Range	78.1-5000pg/mL
Sensitivity	28pg/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for CG rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to CG. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to CG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain CG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of CG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

[15426252](#)

NCBI GeneID	94115
NCBI Accession #	NP_149439.1
NCBI GenBank Nucleotide #	NM_033183.2
NCBI Official Full Name	chorionic gonadotropin, beta polypeptide 8
NCBI Official Synonym Full Names	chorionic gonadotropin subunit beta 8
NCBI Official Symbol	CGB8
NCBI Protein Information	chorionic gonadotropin, beta polypeptide 8

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
