

## Fentanyl Monoclonal Antibody | anti-FEN-Ab1 antibody

Antibody against Fentanyl

CATALOG #  
**AAA71773**

APPLICATIONS  
**Lateral Flow, ELISA**

### PRODUCT SYNONYMS

Fentanyl; Monoclonal Antibody; Antibody against Fentanyl; FEN-Ab1; anti-FEN-Ab1 antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                          |
|---------------------------------------------------|--------------------------------------------------------------------------|
| Clonality                                         | Monoclonal                                                               |
| Isotype                                           | IgG1                                                                     |
| Specificity                                       | Fentanyl                                                                 |
| Purity/Purification                               | Purity: >95%<br>Purification: Protein A affinity chromatography purified |
| Form/Format                                       | Liquid; 50mM NaCl, 10mM PBS pH 8.0, with 0.1% NaN <sub>3</sub>           |
| Concentration                                     | 4.8 mg/ml (varies by lot)                                                |
| Applicable Applications for anti-FEN-Ab1 antibody | LF (Lateral Flow), ELISA                                                 |
| Immunogen                                         | FYL-BSA conjugate                                                        |
| Source                                            | Mouse Ascites                                                            |
| Note                                              | Centrifuge before opening to ensure complete recovery of vial contents.  |
| Preparation and Storage                           | Store at 2-8°C. For long term storage, freeze at -20°C.                  |

### ADDITIONAL INFORMATION

|                                                       |                                                                            |
