

## Mouse anti-Human CD4 T helper cells Monoclonal Antibody

anti-CD4 T helper cells

| CATALOG # | HOST  | REACTIVITY | APPLICATIONS                     |
|-----------|-------|------------|----------------------------------|
| AAA71873  | Mouse | Human      | Flow Cytometry, Functional Assay |

### PRODUCT SYNONYMS

CD4 T helper cells; Monoclonal Antibody; anti-CD4 T helper cells; Anti-CD4 antibody; anti-CD4 IgG1 (monoclonal); anti-CD4 T helper cells antibody

### PRODUCT SPECIFICATIONS

|                                                              |                                                                      |
|--------------------------------------------------------------|----------------------------------------------------------------------|
| Host                                                         | Mouse                                                                |
| Reactivity                                                   | Human                                                                |
| Clonality                                                    | Monoclonal                                                           |
| Clone Number                                                 | ICO-86                                                               |
| Specificity                                                  | CD4 antigen (human), TH cells.                                       |
| Purity/Purification                                          | Protein A purified.                                                  |
| Concentration                                                | ~ 1 mg/ml; bulk amount available upon request. (varies by lot)       |
| Applicable Applications for anti-CD4 T helper cells antibody | FCM/FACS (Flow Cytometry)                                            |
| Recognition                                                  | human CD4 antigen                                                    |
| Buffer & Composition                                         | 1 X PBS pH 7.4; 0.5% Saccharose; 0.2% gelatin; 0.1% NaN <sub>3</sub> |
| Preparation and Storage                                      | Long Term: -80C; Short Term: 4C                                      |

### ADDITIONAL INFORMATION

|                                                                  |                                                |
