

## HTLV-1 gp21 recombinant protein

HTLV-1 gp21 recombinant protein

|                              |                                    |                                                                               |
|------------------------------|------------------------------------|-------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA71887</b> | HOST<br><b>E Coli, recombinant</b> | APPLICATIONS<br><b>Lateral Flow, Western Blot, Immunoprecipitation, ELISA</b> |
|------------------------------|------------------------------------|-------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

HTLV-1 gp21; HTLV-1 gp21 recombinant protein; HTLV-I gp21 Recombinant Antigen; HTLV-I gp21 antigen (recombinant). HTLV-I a.a. 351-404 of the gp21 immunodominant region.

### PRODUCT SPECIFICATIONS

|                                                             |                                                                                     |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Host                                                        | E Coli, recombinant                                                                 |
| Purity/Purification                                         | > 95% pure; Purity of proteins is evaluated 10% SDS-PAGE and HPLC-C4                |
| Concentration                                               | ~ 1 mg/ml; bulk amount available upon request. (varies by lot)                      |
| Applicable Applications for HTLV-1 gp21 recombinant protein | LF (Lateral Flow), WB (Western Blot), IP (Immunoprecipitation), ELISA               |
| Fusions                                                     | GST at N-terminus.                                                                  |
| Buffer & Composition                                        | 60 mM NaCl; 50 mM Tris-HCl pH 8.0; 0.25% Sarkosil; 50% Glycerol; 10 mM glutathione; |
| Preparation and Storage                                     | Long Term: -80C; Short Term: 4C                                                     |

### ADDITIONAL INFORMATION

|                                                                 |                                                                   |
|-----------------------------------------------------------------|-------------------------------------------------------------------|
