

Ferritin H Recombinant Antibody | FTH1 recombinant antibody

Anti-Ferritin H [4C9], Rabbit IgG, kappa

CATALOG # AAA72560	HOST Rabbit	REACTIVITY Human	APPLICATIONS Western Blot, ELISA, Immunohistochemistry
------------------------------	-----------------------	----------------------------	--

PRODUCT SYNONYMS

Ferritin H; Monoclonal Recombinant Antibody; Anti-Ferritin H [4C9]; Rabbit IgG; kappa; FTH1; FTHL6; AIF; acidic isoferitin; Ferritin heavy chain; Ferritin H subunit; FTH1 recombinant antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Monoclonal
Isotype	Rabbit IgG kappa
Clone Number	4C9
Specificity	This antibody binds human acidic isoferitin. Ferritin is a protein that catalyzes the oxidation of ferrous iron(II) to ferric iron(III) and stores iron in a soluble, non-toxic, readily available form. Ferritin is important for iron homeostasis. Ferritins occur as many isoforms, all of which are composed of various combinations of the two primary subunits, H and L. Acidic isoferitins have high proportions of H subunit.
Purity/Purification	Protein A affinity purified
Form/Format	PBS with 0.02% Proclin 300.
Concentration	1mg/ml (varies by lot)
Applicable Applications for FTH1 recombinant antibody	WB (Western Blot), ELISA, IHC (Immunohistochemistry)
Preparation and Storage	Store at 4 degree C for up to 3 months. For longer storage, aliquot and store at -20 degree C.

IMAGES

FCM/FACS (Flow Cytometry)

Flow cytometry using anti-Ferritin H antibody 4C9 (AAA72560). Paraformaldehyde fixed HeLa cells permeabilized with 0.5% Triton were stained with the anti-unknown specificity antibody or the rabbit IgG version of 4C9 (AAA72560, blue line) at a dilution of 1:100 for 1 hour at RT. After washing, the bound antibody was detected using a goat anti-rabbit IgG Alexa Fluor 488 antibody at a dilution of 1:1000, and the cells were analyzed using a FACScan flow cytometer.

IF (Immunofluorescence)

Immunofluorescence staining of HeLa cells. Cells were fixed with paraformaldehyde, permeabilized with Triton, and stained with the chimeric rabbit IgG (AAA72560, DAPI, merge).

ADDITIONAL INFORMATION

Related Product Information for FTH1 recombinant antibody	The original antibody was generated by immunizing BALB/c mice with acidic isoferitin (AIF) from primary hepatic carcinoma (PHC) tissues.

NCBI AND UNIPROT INFORMATION

NCBI GI #	56682959
NCBI GeneID	2495
NCBI Accession #	NP_002023.2
NCBI GenBank Nucleotide #	NM_002032.2
UniProt Accession #	P02794; Q3KRA8; Q3SWW1; B3KNR5
Molecular Weight	21,226 Da
NCBI Official Full Name	ferritin heavy chain
NCBI Official Synonym Full Names	ferritin, heavy polypeptide 1
NCBI Official Symbol	FTH1
NCBI Official Synonym Symbols	FHC; FTH; PLIF; FTHL6; PIG15
NCBI Protein Information	ferritin heavy chain; apoferritin; ferritin H subunit; placenta immunoregulatory factor; proliferation-inducing protein 15; cell proliferation-inducing gene 15 protein
UniProt Protein Name	Ferritin heavy chain
UniProt Gene Name	FTH1
UniProt Synonym Gene Names	FTH; FTHL6; Ferritin H subunit
UniProt Entry Name	FRIH_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
