

Human PMN Elastase ELISA Kit

PMN Elastase ELISA

CATALOG #
AAA72636

REACTIVITY
Human

PRODUCT SYNONYMS

PMN Elastase; PMN Elastase ELISA; PMN Elastase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	The PMN Elastase test is specific human PMN elastase only, respectively the PMN elastase/alpha1-PI complex.
Samples	Mouse/Rat Serum Or Plasma
Assay Type	Competitive
Preparation and Storage	2 - 8 degree C

ADDITIONAL INFORMATION

Related Product Information for PMN Elastase elisa kit

Intended Uses: The AAA Biotech Mouse/Rat Triiodothyronine (T3) ELISA Kit is intended for the measurement of Triiodothyronine (T3) in mouse/rat serum or plasma. For research use only.

Principle of the Assay: The AAA Biotech Mouse/Rat T3 ELISA is a solid phase competitive ELISA. The samples, the working T3 enzyme conjugate, diluted in assay diluent, are added to the wells coated with anti-T3 polyclonal antibody. T3 in the serum competes with T3 enzyme conjugate for binding sites. Unbound T3 and T3 enzyme conjugate is washed off by washing buffer. Upon the addition of the substrate, the intensity of color is inversely proportional to the concentration of T3 in the samples. A standard curve is prepared relating color intensity to the concentration of the T3.
