

## Mouse anti-Human SSEA-3 IgG Monoclonal Antibody | anti-SSEA-3 antibody

Anti-SSEA-3 (15B11) Mouse IgG MoAb

| CATALOG # | HOST  | REACTIVITY | APPLICATIONS                                           |
|-----------|-------|------------|--------------------------------------------------------|
| AAA72706  | Mouse | Human      | Flow Cytometry, Functional Assay, Immunohistochemistry |

### PRODUCT SYNONYMS

SSEA-3 IgG; Monoclonal Antibody; Anti-SSEA-3 (15B11) Mouse IgG MoAb; anti-SSEA-3 antibody

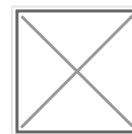

### PRODUCT SPECIFICATIONS

|                                                  |                                                                          |
|--------------------------------------------------|--------------------------------------------------------------------------|
| Host                                             | Mouse                                                                    |
| Reactivity                                       | Human                                                                    |
| Clonality                                        | Monoclonal                                                               |
| Isotype                                          | Mouse IgG                                                                |
| Clone Number                                     | 15B11                                                                    |
| Form/Format                                      | Lyophilized product from 1% BSA in PBS containing 0.05% NaN <sub>3</sub> |
| Applicable Applications for anti-SSEA-3 antibody | FCM/FACS (Flow Cytometry), IHC (Immunohistochemistry)                    |
| Immunogen                                        | SSEA-3                                                                   |
| Preparation and Storage                          | Store at 2-8 degree C                                                    |
