

Mouse Toxoplasma gondii p30 Monoclonal Antibody

Toxoplasma gondii p30 antibody

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA74492	Mouse	Clone TP3 reacts with p30 membrane protein in ELISA and Immunoblotting.	ELISA, Immunofluorescence, Immunoblot, Western Blot

PRODUCT SYNONYMS

Toxoplasma gondii p30; Monoclonal Antibody; Toxoplasma gondii p30 antibody; Monoclonal Toxoplasma gondii p30; Anti-Toxoplasma gondii p30; Toxoplasma gondii p30 antigen; Toxoplasma gondii; Anti Toxoplasma gondii p30; anti-Toxoplasma gondii p30 antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	Clone TP3 reacts with p30 membrane protein in ELISA and Immunoblotting.
Clonality	Monoclonal
Isotype	IgG2a
Clone Number	TP3
Specificity	Toxoplasma gondii
Purity/Purification	Toxoplasma gondii p30 antibody was purified by chromatography on protein A Sepharose.
Form/Format	Supplied as a liquid in PBS, pH 7.4 with 0.09% Sodium Azide as a preservative.
Concentration	8.2mg/ml (varies by lot)
Applicable Applications for anti-Toxoplasma gondii p30 antibody	ELISA, IF (Immunofluorescence), IB (Immunoblot)
Immunogen	Tachyzoites Lysate
Biohazard Information	This product contains sodium azide as preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for anti-Toxoplasma gondii p30 antibody	Toxoplasma gondii is a species of parasitic protozoa in the genus Toxoplasma. The definitive host of T. gondii is the cat, but the parasite can be carried by many warm-blooded animals. Toxoplasmosis, the disease of which T. gondii is the causative agent, is usually minor and self-limiting but can have serious or even fatal effects on a fetus whose mother first contracts the disease during pregnancy or on an immunocompromised human or cat.
Product Categories/Family for anti-Toxoplasma gondii p30 antibody	Infectious Disease

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
