

secretory IgA Secondary Antibody

Goat anti Human secretory IgA antibody

CATALOG # AAA74988	HOST Goat	APPLICATIONS Western Blot, ELISA
------------------------------	---------------------	--

PRODUCT SYNONYMS

secretory IgA; Goat anti Human secretory IgA antibody; Polyclonal Goat anti Human secretory IgA; Anti-Human secretory IgA; Secretory Immunoglobulin A; secretory IgA secondary antibody

PRODUCT SPECIFICATIONS

Host	Goat
Specificity	Human
Form/Format	Delipidated and adsorbed serum with PBS, pH 7.3 with 0.05% Na Azide.
Concentration	6.0mg IgG/ml; Total Protein: 64.9 mg/ml by Biuret (varies by lot)
Applicable Applications for secretory IgA secondary antibody	WB (Western Blot), ELISA
Cross Reactivity	Specific for Secretory IgA (Human). No reaction to human IgG, IgM or Non-immunoglobulin serum proteins.
Immunogen	Human secretory IgA affinity purified.
Preparation and Storage	Store at 4°C for short term only. For routine storage, aliquot and freeze at -20°C. Avoid repeated Freeze/Thaw cycles

ADDITIONAL INFORMATION

Related Product Information for secretory IgA secondary antibody	IgA is the most abundant immunoglobulin in body fluids and the second most abundant immunoglobulin in plasma, found at a concentration of 0.4 to 2.2 mg/ml. It plays a very important role in the first specific defense against natural infection. Secretory IgA differs from serum IgA in that it contains two additional peptides: the secretory component and the J chain.
Product Categories/Family for secretory IgA secondary antibody	Immunology ; Unconjugated Secondary Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
