

Rabies Recombinant Protein

Rabies protein

CATALOG # AAA75471	HOST E. coli	APPLICATIONS Western Blot, ELISA
------------------------------	------------------------	--

PRODUCT SYNONYMS

Rabies; Rabies protein; Rabies Recombinant Protein; Rabies recombinant protein

PRODUCT SPECIFICATIONS

Host	E. coli
Purity/Purification	> 95% by SDS-PAGE
Form/Format	Liquid in 25mM Tris-HCl, 0.1% SDS, pH 8.0
Concentration	2.04 mg/ml (varies by lot)
Applicable Applications for Rabies recombinant protein	WB (Western Blot), ELISA
Protein Type	Recombinant
Biological Significance	Rabies is a viral disease that causes acute encephalitis (inflammation of the brain) in warm-blooded animals. It is zoonotic most commonly transmitted by a bite from an infected animal. The rabies virus is the type species of the Lyssavirus genus, in the family Rhabdoviridae, order Mononegavirales. Lyssaviruses have helical symmetry, with a length of about 180 nm and a cross-sectional diameter of about 75 nm.
Biohazard	Use standard laboratory precautions when handling this material
Preparation and Storage	Store at 4 degree C for short term storage. Aliquot and store at -20 degree C for long term storage. Avoid repeated freeze/thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for Rabies recombinant protein	Purified recombinant Rabies protein
Product Categories/Family for Rabies recombinant protein	Veterinary

NCBI AND UNIPROT INFORMATION

Molecular Weight	34 kDa
------------------	--------

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
