

Pro-Nerve Growth Factor Recombinant Protein | ProNGF recombinant protein

Recombinant Human Pro- Nerve Growth Factor

CATALOG # AAA76562	REACTIVITY Human
------------------------------	----------------------------

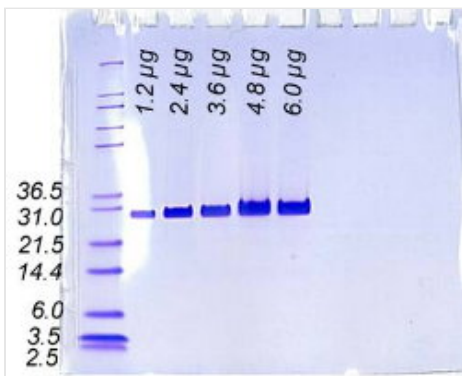

PRODUCT SYNONYMS

Pro-Nerve Growth Factor; Recombinant Human Pro- Nerve Growth Factor; ProNGF recombinant protein

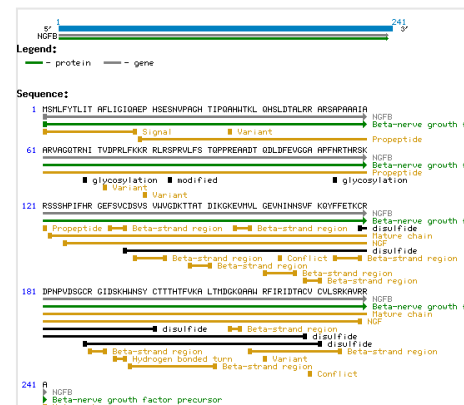

PRODUCT SPECIFICATIONS

Reactivity	Human
Technical Note	The proNGF is a 50 kDa dimer in solution, on SDS-PAGE monomer at about 25-30 kDa is detected. To analyze this protein on an SDS-PAGE., DTT as a reduction agent is absolutely necessary.
Preparation and Storage	Store at 4-8 degrees

ADDITIONAL INFORMATION

Related Product Information for ProNGF recombinant protein	ProNGF is the pro-form of the neurotrophin nerve growth factor. Like the mature protein proNGF is characterized by the cysteine knot motif consisting of three cysteine bridges. The protein predominantly exists as a non-covalently linked homodimer.
Product Categories/Family for ProNGF recombinant protein	ProNGF

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
