

Vasopressin V1B Receptor Blocking Peptide | V1B blocking peptide

Vasopressin V1B Receptor blocking peptide

CATALOG #
AAA76662

PRODUCT SYNONYMS

Vasopressin V1B Receptor; Vasopressin V1B Receptor blocking peptide; V1B blocking peptide

PRODUCT SPECIFICATIONS

Form/Format	Affinity Purified antibody Lyophilized. 100ug of dried peptide
Peptide Sequence	C-RKFKRRNQERLNPRD
Preparation and Storage	Store at 4 degree C short term. Store at -20 degree C for maximum stability. Avoid freeze-thaw cycles.

Related Product Information for V1B blocking peptide

Blocking Peptide. Control Antigen for use in absorption control.

Arginine vasopressin (AVP) is a neurohypophysial hormone found in most mammals, including humans. It is involved in regulating mood.

Antagonists of Vasopressin V1B Receptor (AVPR1B) has been found to protect against depression. It has also been theorized that it might play a role in anxiety disorders as well as in unipolar depression.
