

## Mouse ASFV P72 Monoclonal Antibody | anti-ASFV P72 antibody

anti-ASFV Antibody (Mouse-Clone# 10G5)-Monoclonal

|                              |                      |                                            |
|------------------------------|----------------------|--------------------------------------------|
| CATALOG #<br><b>AAA76843</b> | HOST<br><b>Mouse</b> | APPLICATIONS<br><b>Western Blot, ELISA</b> |
|------------------------------|----------------------|--------------------------------------------|

### PRODUCT SYNONYMS

ASFV P72; Monoclonal Antibody; anti-ASFV Antibody (Mouse-Clone# 10G5)-Monoclonal; anti-ASFV P72 antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                                                                                                               |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                               | Mouse                                                                                                                                                         |
| Clonality                                          | Monoclonal                                                                                                                                                    |
| Clone Number                                       | 10G5                                                                                                                                                          |
| Specificity                                        | This antibody reacts with ASFV p72 protein as determined by ELISA and Western Blotting. Optimal working dilutions should be determined by the investigator.   |
| Purity/Purification                                | Purified Protein                                                                                                                                              |
| Form/Format                                        | Liquid. PBS, pH 7.2                                                                                                                                           |
| Concentration                                      | ≥ 2.0 mg/mL (varies by lot)                                                                                                                                   |
| Applicable Applications for anti-ASFV P72 antibody | WB (Western Blot), ELISA                                                                                                                                      |
| Preservative                                       | 0.09% sodium azide                                                                                                                                            |
| Preparation and Storage                            | Store between 2 and 8°C for up to 14 days. For long-term storage, aliquot and store between -20°C and -80°C. Multiple freeze-thaw cycles are not recommended. |

### ADDITIONAL INFORMATION

|                                                        |                                                                                                                                                                                                                                         |
|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-ASFV P72 antibody | This mouse IgG2b kappa antibody is purified using Protein A chromatography. It is produced from tissue culture media obtained at the lab. Antibody concentration was determined using an absorbance at 280 nm:1.4 equals 1.0 mg of IgG. |
| Product Categories/Family for anti-ASFV P72 antibody   | <a href="#">Primary Antibody</a> ; <a href="#">African Swine Fever Virus (ASFV P72) Antibodies</a>                                                                                                                                      |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
