

Mouse anti-Bovine/Cow Coronavirus Monoclonal Antibody

Anti-Bovine Coronavirus Antibody (Mouse Clone# 9G10)-Monoclonal

CATALOG # AAA76874	HOST Mouse	REACTIVITY Bovine/Cow	APPLICATIONS Western Blot, Immunohistochemistry, Immunofluorescence, ELISA
------------------------------	----------------------	---------------------------------	--

PRODUCT SYNONYMS

Coronavirus; Monoclonal Antibody; Anti-Bovine Coronavirus Antibody (Mouse Clone# 9G10)-Monoclonal; anti-Bovine Coronavirus; anti-Coronavirus antibody

PRODUCT SPECIFICATIONS

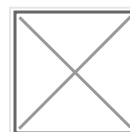

Host	Mouse
Reactivity	Bovine/Cow
Clonality	Monoclonal
Isotype	IgG1
Clone Number	9G10
Specificity	This antibody reacts with recombinant Bovine Coronavirus nucleoprotein and virus lysates as determined by ELISA and western blotting. This product recognizes Bovine Coronavirus with immunofluorescence assay.
Purity/Purification	Purified Protein
Form/Format	Liquid; Phosphate buffered saline, pH7.2; 0.09% sodium azide
Applicable Applications for anti-Coronavirus antibody	WB (Western Blot), IHC (Immunohistochemistry), IF (Immunofluorescence), ELISA
Type	Unconjugated AP
Sample Type	Plasma, Serum
Procedure	This mouse IgG1 lambda is purified using Protein A chromatography. It is produced from tissue culture media obtained at our facility in The United States. Antibody concentration was determined using an absorbance at 280 nm: 1.4 equals 1.0 mg of IgG.
Preparation and Storage	Antibody should be stored between 2 and 8 degree C for up to 30 days. For long-term storage, aliquot and store between -20 degree C and -80 degree C. Multiple freeze-thaw cycles are not recommended.
