

Marburg Virus Nucleoprotein Recombinant Protein

Purified Marburg Virus Nucleoprotein-Recombinant

CATALOG # AAA76877	HOST CHO (S cell line)	APPLICATIONS Western Blot, ELISA
------------------------------	----------------------------------	--

PRODUCT SYNONYMS

Marburg Virus Nucleoprotein; Purified Marburg Virus Nucleoprotein-Recombinant; Marburg Virus Nucleoprotein recombinant protein

PRODUCT SPECIFICATIONS

Host	CHO (S cell line)
Specificity	The product is determined to be 90% pure based on SDS-PAGE analysis and western blot. Under reducing conditions, MABV-NP is detected at an estimated molecular weight of 50 kDa. Its concentration is determined using a Bradford protein assay BSA standard curve and A280.
Purity/Purification	Purified Protein
Form/Format	Liquid; PBS, pH7.2
Applicable Applications for Marburg Virus Nucleoprotein recombinant protein	WB (Western Blot), ELISA
Procedure	Recombinant Marburg Virus Nucleoprotein (MABV-NP, NCBI Accession # YP_001531153.1) with a 6xHIS tag was expressed in CHO cells and purified by nickel affinity chromatography.
Preparation and Storage	Aliquots can be stored between 2-8 degree C for up to one week. Following the initial thaw, prepare multiple aliquots and store at -20 degree to -80 degree C. Avoid repeated freeze/thaw cycles.

IMAGES

Application Data

Recombinant Marburg Virus Nucleoprotein with a 6xHIS tag was expressed in CHO cells and purified by nickel affinity chromatography. Estimated purity is 90%.

ADDITIONAL INFORMATION

Product Categories/Family for Marburg Virus Nucleoprotein recombinant protein	Protein Standard; Antigen; Infectious Agents-Human and Veterinary; Marburg Virus Antigens
---	---

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
