

Rat Anti-Mouse Lambda (lambda light chain specific) Secondary Antibody

Rat Anti-Mouse Lambda-AP

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA78653	Rat	Mouse	Immunofluorescence, Flow Cytometry, Functional Assay, ELISA

PRODUCT SYNONYMS

Rat Anti-Mouse Lambda (lambda light chain specific); Monoclonal Secondary Antibody; Rat Anti-Mouse Lambda-AP; Rat Anti-Mouse Lambda- Alkaline Phosphatase-Labeled; Rat Anti-Mouse Lambda (lambda light chain specific) secondary antibody

PRODUCT SPECIFICATIONS

Host	Rat
Reactivity	Mouse
Clonality	Monoclonal
Isotype	Rat IgG2b kappa
Clone Number	JC5-1
Specificity	Reacts with mouse lambda light chains as demonstrated by ELISA, FLISA, and/or flow cytometry.
Form/Format	Alkaline Phosphatase (AP) Conjugate
Applicable Applications for Rat Anti-Mouse Lambda (lambda light chain specific) secondary antibody	IF (Immunofluorescence), FCM/FACS (Flow Cytometry), ELISA
Characterization	To ensure lot-to-lot consistency, each batch of monoclonal antibody is tested by flow cytometry and/or ELISA to conform to characteristics of a standard reference reagent. Representative data are included in this product insert.
Warning	Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.
Preparation and Storage	The purified (UNLB) antibody is supplied as 0.5 mg of purified immunoglobulin in 1.0 mL of 100 mM borate buffered saline, pH 8.2. No preservatives or amine-containing buffer salts added. Store at 2-8 degree C. The fluorescein (FITC) conjugate is supplied as 0.5 mg in 1.0 mL of PBS/NaN₃. Store at 2-8 degree C The alkaline phosphatase (AP) conjugate is supplied as 1.0 mL of stock solution in 50mM Tris/1mM MgCl₂/50% Glycerol, pH 8.0, containing 0.1% NaN₃ as preservative. Store at 2-8 degree C or long-term at -20 degree C. The horseradish peroxidase (HRP) conjugate is supplied as 1.0 mL of stock solution in 50% glycerol/50% PBS, pH 7.4. No preservative added. Store at 2-8 degree C or long-term at -20 degree C. The biotin (BIOT) conjugate is supplied as 0.5 mg in 1.0 mL of PBS/NaN₃. Store at 2-8 degree C The R-phycoerythrin (R-PE) conjugate is supplied as 0.1 mg in 1.0 mL or 0.2 mg in 2.0 mL of PBS/NaN₃ and a stabilizing agent. Store at 2-8 degree C. Do not freeze! Protect conjugated forms from light. Reagents are stable for the period shown on the label if stored as directed.

IF (Immunofluorescence)
Product: Rat Anti-Mouse lambda-R-PEAmount Used: < or = 0.2 ug/10^6 cellsBALB/c splenocytes were double-stained with rat anti-mouse lambda-R-PE and rat anti-mouse C019-FITC (Clone 6D5). Small lymphocytes were then gated and analyzed using a flow cytometer.

ADDITIONAL INFORMATION

Product Categories/Family for Rat Anti-Mouse Lambda (lambda light chain specific) secondary antibody	Rat Anti-Mouse Lambda
--	-----------------------

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
