### PRODUCT SYNONYMS

Goat Anti-Mouse IgG (gamma chain specific); Polyclonal Secondary Antibody; Goat Anti-Mouse IgG; Human ads-UNLB; Human ads - Purified; Unlabeled Antibody; Goat Anti-Mouse IgG (gamma chain specific) secondary antibody

### PRODUCT SPECIFICATIONS

|                                                                                           |                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                                                                      | Goat                                                                                                                                                                                              |
| Reactivity                                                                                | Mouse                                                                                                                                                                                             |
| Clonality                                                                                 | Polyclonal                                                                                                                                                                                        |
| Isotype                                                                                   | IgG                                                                                                                                                                                               |
| Specificity                                                                               | Reacts with mouse IgG <sub>1</sub> , IgG <sub>2a</sub> , IgG <sub>2b</sub> and IgG <sub>3</sub> as demonstrated by ELISA and flow cytometry. Minimal cross reactivity with human immunoglobulins. |
| Purity/Purification                                                                       | Affinity chromatography on pooled mouse IgG covalently linked to agarose.                                                                                                                         |
| Form/Format                                                                               | The purified (UNLB) antibody is supplied as 1.0 mg purified immunoglobulin in 1.0 mL of 100 mM borate buffered saline, pH 8.2.                                                                    |
| Applicable Applications for Goat Anti-Mouse IgG (gamma chain specific) secondary antibody | ELISA                                                                                                                                                                                             |
| Source                                                                                    | Pooled antisera from goats hyperimmunized with mouse IgG paraproteins.                                                                                                                            |
| Cross Absorption                                                                          | Mouse IgM and IgA, pooled human sera and purified human paraproteins.                                                                                                                             |
| Preservative                                                                              | No preservatives or amine-containing buffer salts added                                                                                                                                           |
| Preparation and Storage                                                                   | Store at 2-8 degree C.                                                                                                                                                                            |
