

Goat Anti-Human lambda (lambda chain specific) Secondary Antibody

Goat Anti-Human Lambda-HRP

CATALOG # AAA78805	HOST Goat	REACTIVITY Human	APPLICATIONS ELISA
------------------------------	---------------------	----------------------------	------------------------------

PRODUCT SYNONYMS

Goat Anti-Human lambda (lambda chain specific); Polyclonal Secondary Antibody; Goat Anti-Human Lambda-HRP; Goat Anti-Human Lambda - HRP; Goat Anti-Human lambda (lambda chain specific) secondary antibody

PRODUCT SPECIFICATIONS

Host	Goat
Reactivity	Human
Clonality	Polyclonal
Isotype	IgG
Specificity	Reacts with human lambda light chains as demonstrated by ELISA and flow cytometry
Purity/Purification	Affinity chromatography on pooled human Igs with lambda light chains covalently linked to agarose
Form/Format	Horseradish Peroxidase (HRP) Conjugate
Applicable Applications for Goat Anti-Human lambda (lambda chain specific) secondary antibody	ELISA
Source	Pooled antisera from goats hyperimmunized with human myeloma proteins with lambda light chains
Cross Absorption	Pooled human myeloma proteins with kappa light chains
Characterization	To ensure lot-to-lot consistency, each batch of product is tested by ELISA, Fluorescent ELISA, and/or flow cytometry for conformance to characteristics of a standard reference reagent.
Cross Adsorption	Human kappa light chains; may react with lambda light chains from other species.
Preparation and Storage	The horseradish peroxidase (HRP) conjugate is supplied as 1.0 mL of stock solution in 50% glycerol/50% PBS, pH 7.4. No preservative added. Store at 2-8 degree C or long-term at -20 degree C.

ADDITIONAL INFORMATION

Product Categories/Family for Goat Anti-Human lambda (lambda chain specific) secondary antibody	Goat Anti-Human lambda (lambda chain specific)
---	--

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
