

Sheep Anti-FITC Secondary Antibody

Sheep Anti-FITC-HRP

CATALOG # AAA78855	HOST Sheep	APPLICATIONS ELISA
------------------------------	----------------------	------------------------------

PRODUCT SYNONYMS

Sheep Anti-FITC; Polyclonal Secondary Antibody; Sheep Anti-FITC-HRP; Sheep Anti - FITC - HRP; Sheep Anti-FITC secondary antibody

PRODUCT SPECIFICATIONS

Host	Sheep
Clonality	Polyclonal
Isotype	IgG
Specificity	Fluorescein Isothiocyanate
Purity/Purification	Affinity chromatography
Form/Format	Horseradish Peroxidase (HRP) Conjugate
Applicable Applications for Sheep Anti-FITC secondary antibody	ELISA
Source	Pooled antisera from sheep hyperimmunized with Fluorescein Isothiocyanate (Isomer I)
Cross Absorption	Mouse, human and rat serum proteins
Characterization	To ensure lot-to-lot consistency, each batch of product is tested by ELISA and/or Fluorescent ELISA for conformance to characteristics of a standard reference reagent.
Warning	Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.
Preparation and Storage	The horseradish peroxidase (HRP) conjugate is supplied as 1.0 mL of stock solution in 50% glycerol/50% PBS, pH 7.4. No preservative added. Store at 2-8 degree C or long-term at -20 degree C.

ADDITIONAL INFORMATION

Product Categories/Family for Sheep Anti-FITC secondary antibody	Sheep Anti-FITC
--	-----------------

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
