| Host                                                                        | Mouse                                                                                                                                                                                                              |
| Reactivity                                                                  | Hamster                                                                                                                                                                                                            |
| Clonality                                                                   | Monoclonal                                                                                                                                                                                                         |
| Isotype                                                                     | Mouse (BALB/c) IgG <sub>1</sub> ?                                                                                                                                                                                  |
| Clone Number                                                                | SB139e                                                                                                                                                                                                             |
| Specificity                                                                 | Reacts with the gamma2 heavy chain of Syrian and Armenian Hamster IgG2 as well as with the gamma3 heavy chain of Armenian Hamster IgG3. Clone SB139b does not react with Armenian or Syrian Hamster IgG1 isotypes. |
| Form/Format                                                                 | Supplied as 0.5 mg of purified immunoglobulin in 1.0 mL of 100 mMborate buffered saline, pH 8.2. No preservatives or amine-containing buffer salts added.                                                          |
| Applicable Applications for Mouse Anti-Hamster IgG2/IgG3 secondary antibody | ELISA                                                                                                                                                                                                              |
| Immunogen                                                                   | Armenian Hamster IgG                                                                                                                                                                                               |
| Preparation and Storage                                                     | Store at 2-8°C.                                                                                                                                                                                                    |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
