

Mouse IgM Isotype Control

Mouse IgM Isotype Control R-phycoerythrin-Cyanine 7 (PE/CY7)

CATALOG # AAA78884	HOST Mouse	APPLICATIONS Flow Cytometry, Functional Assay
------------------------------	----------------------	---

PRODUCT SYNONYMS

Mouse IgM Isotype Control; Monoclonal Isotype Control; Mouse IgM Isotype Control R-phycoerythrin-Cyanine 7 (PE/CY7); Mouse IgM - Phycoerythrin-Labeled/Cy7; Mouse IgM Isotype Control isotype control

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	Mouse IgM lambda
Clone Number	11E10
Specificity	Lipopolysaccharide
Form/Format	R - phycoerythrin - Cyanine 7 (R - PE - CY7) Conjugate
Applicable Applications for Mouse IgM Isotype Control isotype control	FCM/FACS (Flow Cytometry)
Characterization	To insure lot-to-lot consistency, each batch of monoclonal antibody is tested by ELISA, FLISA, and/or flow cytometry to conform to characteristics of a standard reference reagent.
Warning	Reagents contain sodium azide. Sodium Azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.
Preparation and Storage	R-phycoerythrin-Cyanine 7 (R-PE-CY 7) conjugates are supplied as 100 tests in 1.0 mL of PBS/NaN ₃ and a stabilizing agent. Store at 2-8 degree C. Do not freeze!

ADDITIONAL INFORMATION

Product Categories/Family for Mouse IgM Isotype Control isotype control	Mouse IgM lambda Isotype Control
---	----------------------------------

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
