

## Human Fc region of immunoglobulin G, Fcgamma ELISA Kit | Fcgamma elisa kit

Human Fc region of immunoglobulin G, Fcgamma ELISA Kit

CATALOG #  
**AAA80299**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Fc region of immunoglobulin G; Fcgamma; Human Fc region of immunoglobulin G; Fcgamma ELISA Kit; Fcgamma elisa kit

### PRODUCT SPECIFICATIONS

|                              |                                                                                                                                   |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                   | Human                                                                                                                             |
| Samples                      | Serum, plasma                                                                                                                     |
| Detection Range              | 0.027 ug/ml-20 ug/ml                                                                                                              |
| Sensitivity                  | 0.024ug/ml                                                                                                                        |
| Detection Wavelength         | 450 nm                                                                                                                            |
| Sample Volume                | 50-100ul                                                                                                                          |
| Protein Biological Process 1 | Immunoglobulin                                                                                                                    |
| Preparation and Storage      | Unopened test kits should be stored at 2 to 8 degree C upon receipt. Please refer to pdf manual for further storage instructions. |

### IMAGES

Standard Curve (Sample)

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
