

Rabbit alpha2 Antiplasmin ELISA Kit | alpha2-AP elisa kit

Rabbit alpha2 Antiplasmin ELISA Kit

CATALOG #
AAA81990

REACTIVITY
Rabbit

PRODUCT SYNONYMS

alpha2 Antiplasmin; Rabbit alpha2 Antiplasmin ELISA Kit; Rabbit a2 Antiplasmin ELISA Kit; alpha2-AP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, Plasma, Cell Culture Supernatants, Body Fluid And Tissue Homogenate
Assay Type	Quantitative Competitive or Sandwich
Sensitivity	0.1 mg/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This alpha1AT ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human alpha1AT. This ELISA kit for research use only!

Principle of the Assay: alpha1AT ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for alpha1AT. Standards or samples are then added to the microtiter plate wells and alpha1AT if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of alpha1AT present in the sample, a standardized preparation of horseradish peroxidase (HRP)-conjugated polyclonal antibody, specific for alpha1AT are added to each well to "sandwich" the alpha1AT immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain alpha1AT and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The alpha1AT concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	29893555
NCBI GeneID	83854
NCBI Accession #	NP_114123.2
NCBI GenBank Nucleotide #	NM_031917.2
Molecular Weight	51,694 Da
NCBI Official Full Name	angiotensinogen-related protein 6
NCBI Official Synonym Full Names	angiotensinogen-like 6
NCBI Official Symbol	ANGPTL6
NCBI Official Synonym Symbols	AGF; ARP5
NCBI Protein Information	angiotensinogen-related protein 6; angiotensinogen-like protein 6; angiotensinogen-related protein 5; angiotensinogen-related growth factor
UniProt Protein Name	Angiotensinogen-related protein 6
UniProt Gene Name	ANGPTL6
UniProt Synonym Gene Names	AGF; ARP5; UNQ152/PRO178
UniProt Entry Name	ANGL6_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
