

Human Isocitrate dehydrogenase ELISA Kit | ICD elisa kit

Human Isocitrate dehydrogenase ELISA Kit

CATALOG #
AAA82001

REACTIVITY
Human

PRODUCT SYNONYMS

Isocitrate dehydrogenase; Human Isocitrate dehydrogenase ELISA Kit; ICD elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	10-250ng/mL
Sensitivity	1.0ng/mL
Intended Uses	This ICD ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human ICD. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ICD elisa kit

Principle of the Assay: ICD ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ICD antibody and an ICD-HRP conjugate. The assay sample and buffer are incubated together with ICD-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ICD concentration since ICD from samples and ICD-HRP conjugate compete for the anti-ICD antibody binding site. Since the number of sites is limited, as more sites are occupied by ICD from the sample, fewer sites are left to bind ICD-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ICD concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	33338804
Molecular Weight	8,398 Da
NCBI Official Full Name	Icd
UniProt Protein Name	Icd
UniProt Gene Name	icd
UniProt Entry Name	Q38557_BPP1

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
