

Human Fibroblast Growth Factor 2 ELISA Kit | FGF 2 elisa kit

Human Fibroblast Growth Factor 2 ELISA Kit

CATALOG #
AAA82970

REACTIVITY
Human

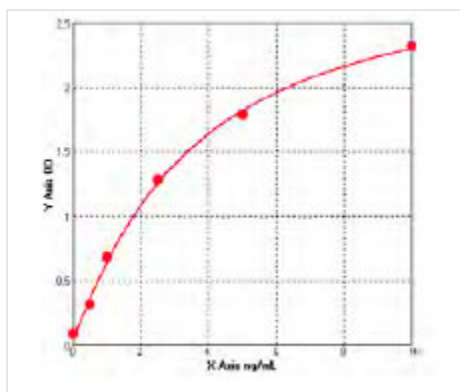

PRODUCT SYNONYMS

Fibroblast Growth Factor 2; Human Fibroblast Growth Factor 2 ELISA Kit; FGF 2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Quantitative Sandwich
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This FGF-2 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human FGF-2. This ELISA kit for research use only!

Principle of the Assay: FGF-2 ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for FGF-2. Standards or samples are then added to the microtiter plate wells and FGF-2 if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of FGF-2 present in the sample, a standardized preparation of horseradish peroxidase (HRP)-conjugated polyclonal antibody, specific for FGF-2 are added to each well to "sandwich" the FGF-2 immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain FGF-2 and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The FGF-2 concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	21686781
NCBI GeneID	949308
NCBI Accession #	NP_663281.1
NCBI GenBank Nucleotide #	NC_004062.1
Molecular Weight	44,963 Da
NCBI Official Full Name	fibroblast growth factor 2
NCBI Official Symbol	PhopGV116
NCBI Official Synonym Symbols	fgf-2
NCBI Protein Information	fibroblast growth factor 2
UniProt Protein Name	Fibroblast growth factor 2
UniProt Gene Name	PhopGV116
UniProt Entry Name	Q8JRU3_9BBAC

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
