

Human Total beta Amyloid Protein ELISA Kit | Abeta elisa kit

Human Total beta Amyloid Protein ELISA Kit

CATALOG #
AAA83297

REACTIVITY
Human

PRODUCT SYNONYMS

Total beta Amyloid Protein; Human Total beta Amyloid Protein ELISA Kit; Human Total b Amyloid Protein ELISA Kit; Abeta elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive or Sandwich
Detection Range	5.0-100ng/m
Sensitivity	1.0ng/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Abeta elisa kit	Intended Uses: This Abeta ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human Abeta. This ELISA kit for research use only! Principle of the Assay: Abeta ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-Abeta antibody and an Abeta-HRP conjugate. The assay sample and buffer are incubated together with Abeta-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Abeta concentration since Abeta from samples and Abeta-HRP conjugate compete for the anti-Abeta antibody binding site. Since the number of sites is limited, as more sites are occupied by Abeta from the sample, fewer sites are left to bind Abeta-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Abeta concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	112927
NCBI GeneID	351
Molecular Weight	84,521 Da
NCBI Official Full Name	Amyloid beta A4 protein
NCBI Official Synonym Full Names	amyloid beta (A4) precursor protein
NCBI Official Symbol	APP
NCBI Official Synonym Symbols	AAA; AD1; PN2; ABPP; APPI; CVAP; ABETA; PN-II; CTFgamma
NCBI Protein Information	amyloid beta A4 protein; preA4; protease nexin-II; peptidase nexin-II; beta-amyloid peptide; beta-amyloid peptide(1-40); beta-amyloid peptide(1-42); alzheimer disease amyloid protein; cerebral vascular amyloid peptide
UniProt Protein Name	Amyloid beta A4 protein
UniProt Gene Name	APP
UniProt Synonym Gene Names	A4; AD1; APP; CVAP; PN-II; S-APP-alpha; S-APP-beta; AICD-59; AID(59); AICD-57; AID(57); AICD-50; AID(50)
UniProt Entry Name	A4_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
