

## Human Monocyte Chemotactic Protein 4 ELISA Kit | MCP 4 elisa kit

Human Monocyte Chemotactic Protein 4 ELISA Kit

CATALOG #  
AAA83316

REACTIVITY  
Human

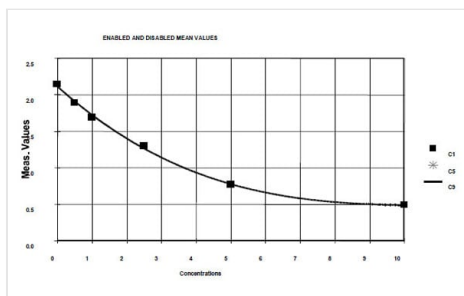

### PRODUCT SYNONYMS

Monocyte Chemotactic Protein 4; Human Monocyte Chemotactic Protein 4 ELISA Kit; MCP 4 elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive or Sandwich                                                    |
| Detection Range            | 50-1000 pg/mL                                                              |
| Sensitivity                | 1.0pg/mL                                                                   |
| Highest Standards          | 1000 pg/mL                                                                 |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### NCBI AND UNIPROT INFORMATION

|                                  |                                 |
|----------------------------------|---------------------------------|
| NCBI GI #                        | 4097421                         |
| NCBI GeneID                      | 6357                            |
| Molecular Weight                 | 10,986 Da                       |
| NCBI Official Full Name          | monocyte chemotactic protein-4  |
| NCBI Official Synonym Full Names | chemokine (C-C motif) ligand 13 |

|                               |                                                                                                                                                                                                                     |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI Official Symbol          | CCL13                                                                                                                                                                                                               |
| NCBI Official Synonym Symbols | NCC1; CKb10; MCP-4; NCC-1; SCYL1; SCYA13                                                                                                                                                                            |
| NCBI Protein Information      | C-C motif chemokine 13; CK-beta-10; new CC chemokine 1; small-inducible cytokine A13; monocyte chemotactic protein 4; monocyte chemoattractant protein 4; small inducible cytokine subfamily A (Cys-Cys), member 13 |
| UniProt Protein Name          | C-C motif chemokine 13                                                                                                                                                                                              |
| UniProt Gene Name             | <b>CCL13</b>                                                                                                                                                                                                        |
| UniProt Synonym Gene Names    | MCP4; NCC1; SCYA13; MCP-4                                                                                                                                                                                           |
| UniProt Entry Name            | CCL13_HUMAN                                                                                                                                                                                                         |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
