

## Guinea Pig E3/ubiquitin-protein ligase ELISA Kit | E3 / UBPL elisa kit

Guinea Pig E3/ubiquitin-protein ligase ELISA Kit

CATALOG #  
**AAA83317**

REACTIVITY  
**Guinea Pig**

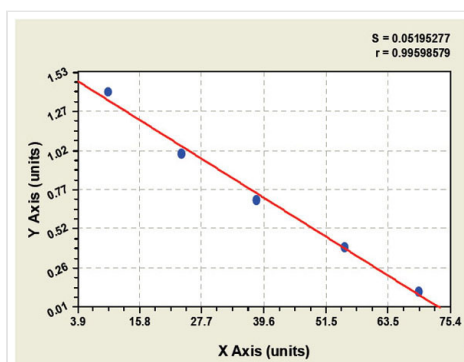

### PRODUCT SYNONYMS

E3/ubiquitin-protein ligase; Guinea Pig E3/ubiquitin-protein ligase ELISA Kit; E3 / UBPL elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                    |
|-------------------------|------------------------------------|
| Reactivity              | Guinea Pig                         |
| Preparation and Storage | Store all reagents at 2-8 degree C |

### IMAGES

### ADDITIONAL INFORMATION

|                                                   |            |
|---------------------------------------------------|------------|
| Product Categories/Family for E3 / UBPL elisa kit | Metabolism |
|---------------------------------------------------|------------|

### NCBI AND UNIPROT INFORMATION

|                                  |                                                    |
|----------------------------------|----------------------------------------------------|
| NCBI GI #                        | 15147337                                           |
| NCBI GeneID                      | 51366                                              |
| NCBI Accession #                 | NP_056986                                          |
| NCBI GenBank Nucleotide #        | NM_015902.5                                        |
| UniProt Accession #              | O95071; O94970; Q9NPL3; B2RP24                     |
| Molecular Weight                 | 309,352 Da                                         |
| NCBI Official Full Name          | E3 ubiquitin-protein ligase UBR5                   |
| NCBI Official Synonym Full Names | ubiquitin protein ligase E3 component n-recognin 5 |
| NCBI Official Symbol             | UBR5                                               |

|                                      |                                                                                                                                                                                                                                                                                        |
|--------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>NCBI Official Synonym Symbols</b> | DD5; EDD; HYD; EDD1                                                                                                                                                                                                                                                                    |
