

Rabbit Vitamin E ELISA Kit | VE elisa kit

Rabbit Vitamin E ELISA Kit

CATALOG #
AAA83324

REACTIVITY
Rabbit

PRODUCT SYNONYMS

Vitamin E; Rabbit Vitamin E ELISA Kit; VE elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	5.0-100 umol/L
Sensitivity	1.0 umol/L
Intended Uses	This VE ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit VE. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for VE elisa kit

Principle of the Assay: VE ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-VE antibody and an VE-HRP conjugate. The assay sample and buffer are incubated together with VE-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the VE concentration since VE from samples and VE-HRP conjugate compete for the anti-VE antibody binding site. Since the number of sites is limited, as more sites are occupied by VE from the sample, fewer sites are left to bind VE-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The VE concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	590566033
NCBI GeneID	18586576
NCBI Accession #	XP_007010115.1
NCBI GenBank Nucleotide #	XM_007010053.1
NCBI Official Full Name	Vitamin E pathway gene 5 isoform 2
NCBI Official Symbol	TCM_043432
NCBI Protein Information	Vitamin E pathway gene 5 isoform 1; Vitamin E pathway gene 5 isoform 2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
